

Lexia Core 5: How-To!

Our school is using Lexia Reading Core5™, a web-based reading program that provides the targeted practice and instruction students need to develop their reading skills.

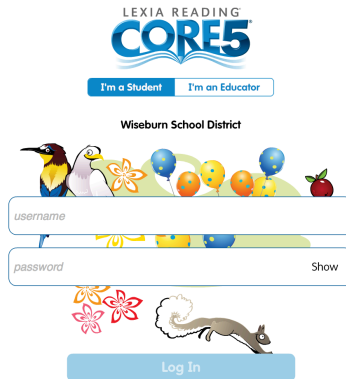

- Instruction for students of all abilities pre-K–5. Created to meet the Common Core State Standards including the additional 15% of standards as specified by CA.
- Students will be covering areas such as: phonological awareness, phonics, structural analysis, automaticity and fluency, vocabulary and reading comprehension.
- Students get additional instruction in areas with which they are struggling.

As an added benefit, students can use Core5 at home. Getting started is easy! Here are some instructions to help you get started at home.

- Go to **www.lexiacore5.com** (Application available!)
- Next, you are asked for the teacher’s email. Please type the teachers email address

After you log in successfully, you will see a ‘Congratulations!’ sign. Click the blue arrow to the right to continue.

Now you will see this:

Type student username and password:

Student username: _____

Student password: _____ **(WISE needs to be upper case)**

If your student does not know what to do, you can click the curved arrow in the bottom right corner to repeat instructions as many times as needed.

- Important! Please allow your child to work independently at his or her own pace. Provide encouragement, but don’t give away the answers!
- Please try to ensure an average of 20-30 minutes per session. We recommend that usage be kept to a reasonable level – not too short and not too long. Pre-K students may need shorter, more frequent usage (10-15 minutes daily).
